

Oktoberfest

Here's to a decade of automation, food, and great times!

IAS's Oktoberfest has been a tradition since 2016, and we are thrilled to announce that our little get-together has reached its TENTH edition. With over 400 people in attendance in 2025, we are anticipating an even larger crowd in 2026.

Our vendors will be here to speak with you directly while enjoying Maine's #1 craft brewery on draft, and this year we're going to be featuring a number of cutting edge demos and innovations.

This is a true automation expo, an intimate trade show, even.

Where else can you can get great one-on-one time with vendor representatives and IAS staff, all while enjoying a pint of some truly exceptional beer?
